Attorney Docket # 4577-50RE

PATENT

I acknowledge the duty to disclose information which is material to the patentability of this application in accordance with Title 37, Code of Federal Regulations, Section 1.56(a).

Upon information and belief, I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply)

- ☒ by reason of a defective specification or drawing. *One here*
- ☒ by reason of the patentee claiming more or less than he had the right to claim in the patent. *one here*
- ☐ by reason of other errors.

At least one error upon which reissue is based is described as follows:

One error being relied upon as the basis for this reissue application is the patentee claimed less than we had the right to claim. Specifically, in claim 12, the limitation that the converted prosody information must be transmitted to both the prosody processor and the synchronization adjuster is unduly limiting. Only transmission to the prosody processor is necessary. Accordingly, claim 12 as issued is being amended to delete the requirement that the converted prosody information must be transmitted to both the prosody processor and the synchronization adjuster. Mention of the synchronization adjuster is deleted by the amendment.

Upon information and belief, all errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

As a named inventor, I hereby appoint the following attorneys and/or agents to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith:
